

***The Lansing Chapter of the Institute of Internal Auditors is excited to announce Introductory ACL™ Training!  
Reserve today for this highly demanded training. Space is limited and pricing is deeply discounted!***

### ***ACL™ 105 Training: Foundations of ACL™ Concepts and Practices***

#### **Focus and Features:**

Designed for beginner to intermediate level users of ACL™, this three-day course introduces you to ACL™ in an interactive, hands-on learning environment. You will learn key data analysis concepts and the basics of working with ACL™ software. Examples used in class will illustrate how the software can add value to your audits.

#### **Learning Objectives:**

By the end of this course, you will be able to:

- Explain the fundamentals of data concepts, ACL™ basics, and data analysis cycles
- Describe the three stages of data access
- Create tables to access data
- Display and filter data
- Verify data integrity, create expressions, compare data from different files/systems, profile data, and produce data reports
- Employ ACL™ to add value to audits

**Program Level:** Introductory

#### **Course Methods:**

This is a group-live, instructor-led course in a classroom setting. For in-class activities, participants use the latest version of ACL™. The class size supports individual attention and development. ACL™ will provide you with standard training software and training materials.

#### **Prerequisites:**

Participants should have a basic understanding of Windows. No advance preparation is required.

#### **Registration/Payment Details:**
