

The Lansing Chapter of the Institute of Internal Auditors is excited to announce Intermediate ACL™ Training! Reserve today for this highly demanded training. Space is limited and pricing is deeply discounted!

ACL™ 201 Training: Data Analysis Techniques – An ACL™ Workshop

Focus and Features:

This two-day course is designed for experienced ACL™ users. In an interactive, hands-on environment you will learn how to integrate ACL™ commands and expressions to accomplish complex data analysis tasks. You will also practice planning and executing a data analysis project by working through a series of case studies. Through this case-study approach you will learn how to effectively use ACL™ in real-life situations and discover what it means to think with ACL™.

Learning Objectives:

By the end of this workshop, you will be able to:

- Apply ACL™ in a structured audit analysis process
- Identify project objectives in business and technical terms
- Apply the necessary steps to achieve project objectives
- Examine data elements and table structures
- Test control totals, bounds, completeness
- Uniqueness, data relationships, and reliability
- Evaluate data to reveal exceptions

Program Level: Intermediate

Course Methods:

This is a group-live, instructor-led course in a classroom setting. For in-class activities, participants use the latest version of ACL™. The class size supports individual attention and development. ACL™ will provide you with standard training software and training materials.

Prerequisites:

Participants should have a basic understanding of Windows. No advance preparation is required.

Registration/Payment Details:

Please visit our website www.theiia.org/Lansing. Registration is under the “events” section. Deadline for registration and payment is March 1st. We **do not** accept credit card payments.
